

OurPeople

Work Simple

In 5 minute or less...

What is OurPeople?

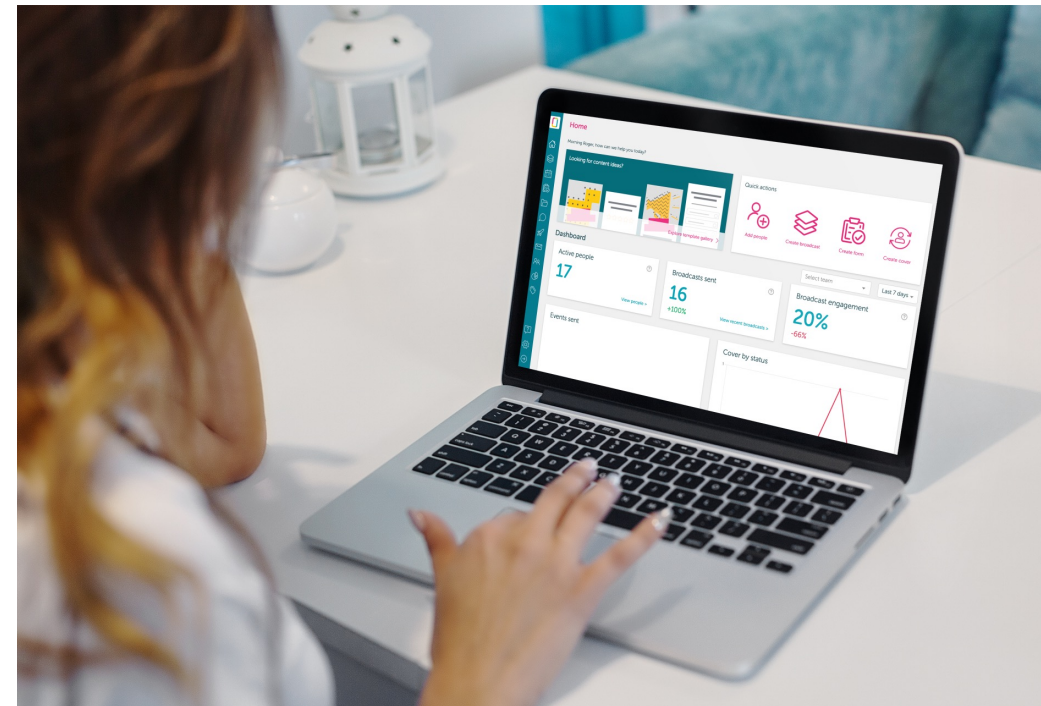

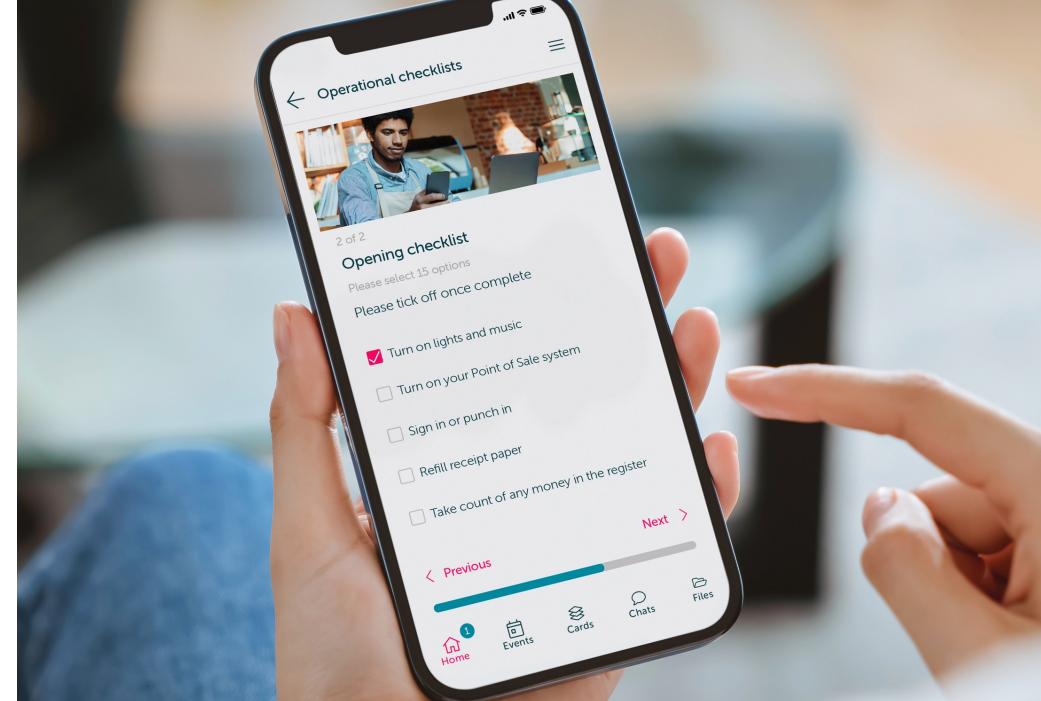

The Solution

Communications + Operations
More time. Fewer distractions.

OurPeople brings work tools and communications to every team member, everywhere. No paper, no data chaos, no distractions.

Forms and checklists your team can use everywhere, on any device.

Now your day-to-day tasks and processes are in one place, where managers and teams can share and log the information they need.

Know They Know

Audit your communications

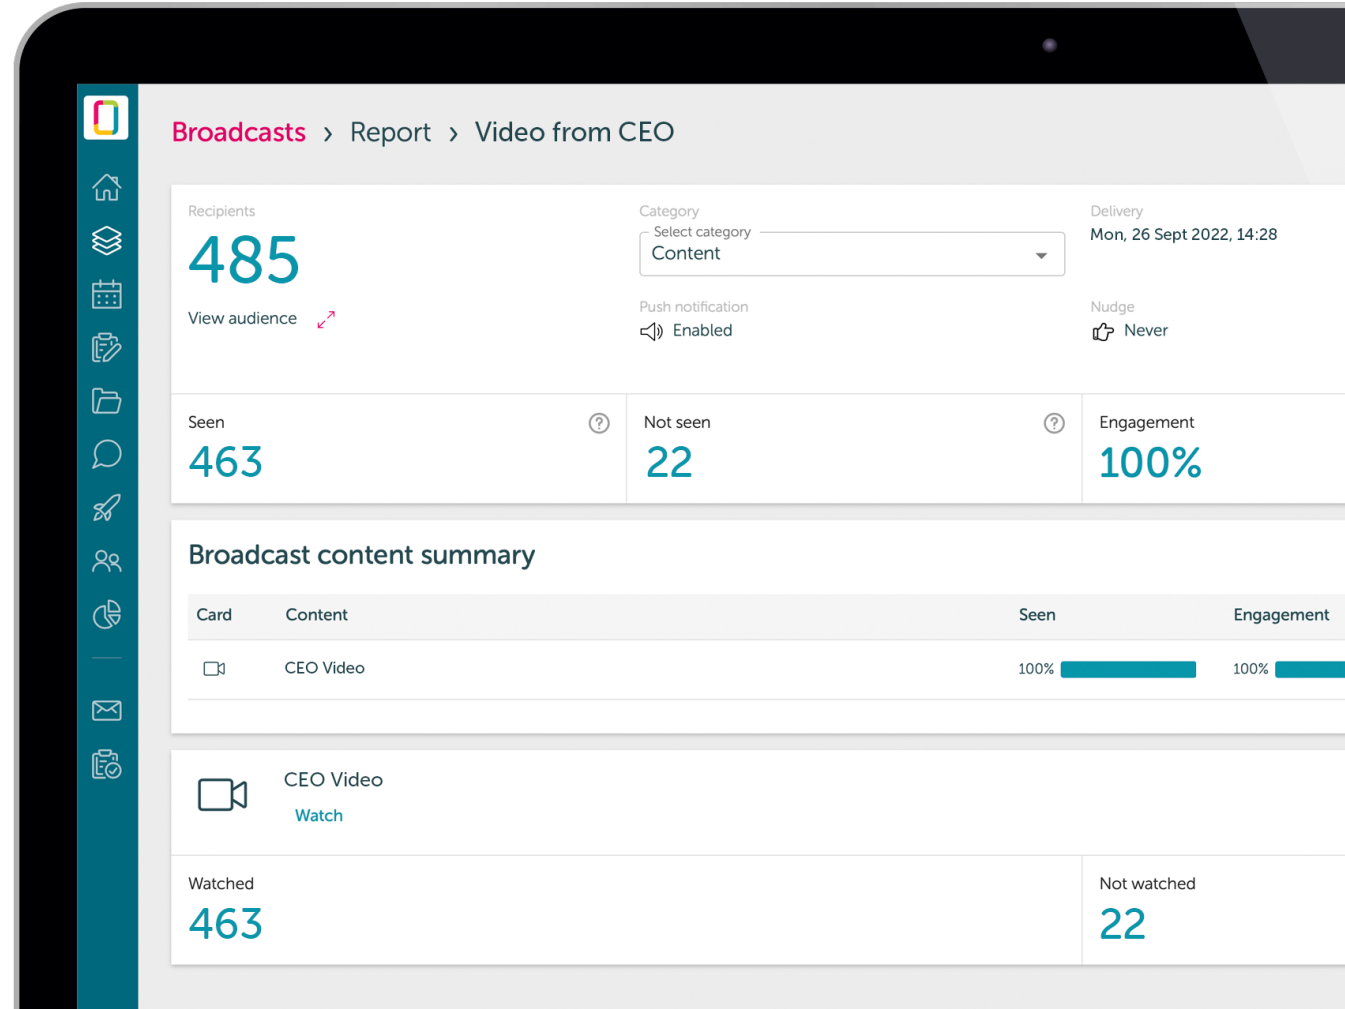

What's been sent? What's been seen?

Track who's seen your updates, who's responded, and how well your content is performing. It's all there in the analytics tool, including a simple audit trail that keeps tabs on engagement and responses. Auditing is believing – and OurPeople puts you in control.

One place for everything

Knowledge at your fingertips.

Give your team access to the resources and training they need to thrive. OurPeople keeps all your files in one place: the Knowledge Center. Videos, PDFs, text documents, and more, are all accessible from any device. No need for a desk, or a computer.

BEST PRACTICES

Share Success

Images with Shout Outs

Send one or stack a bunch together!

Videos

Share updates and wins quickly.

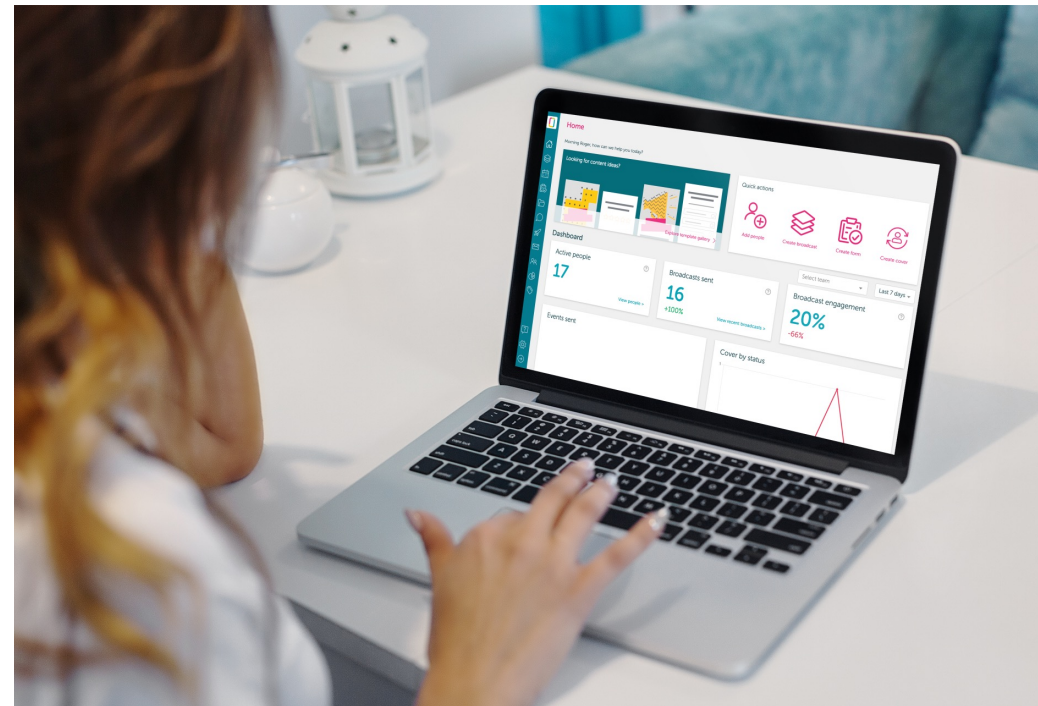

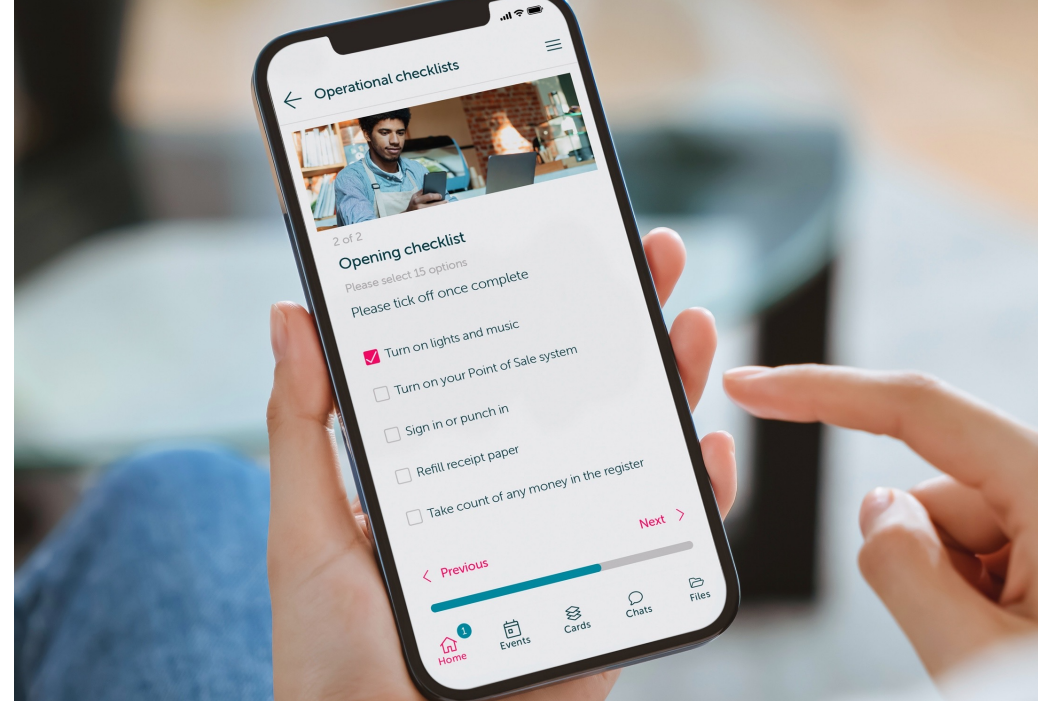

Collect shout outs

With Comment or Choice cards for peer-recognition

Broadcast Results

Share a file, link to an uploaded file, or broadcast a photo.
